

Universal Dock For iPod / iPhone

Features

- **Quality:** Enjoy your entire music collection through the best system in the house
- **Access:** Navigate your iPod's music, photo and video collection using your Yamaha remote control and On-Screen Display*
- **Simple:** A single cable connection to your compatible Yamaha AV Receiver, Micro System, Air Surround Extreme or Digital Sound Projector.
- **Convenient:** Charges your iPod/iPhone while you listen
- **Compatible:** Works with your iPhone, iPod touch, iPod (4th & 5th Gen, Classic), iPod nano & iPod mini

Specifications

- **Cable length:** 2m
- **Dimensions:** (W x H x D): 89 x 37 x 86 mm
- **Weight:** 160g

It's as simple as plug and play. Connect the dock to the receiver via a single cable – no power cable required. Then, use your receiver's remote control to navigate through the iPod™ menu using the On-Screen Display. The YDS-12 will even display your photos and videos on the big screen!

* Check your device's owner's manual for compatibility with On-Screen Display, GUI and video functions.
