

Please see the pictures below outlining the steps for installation of the SPMK20 wall bracket. If you have any questions, please call Yamaha's (Australia) help desk on **1300 739 411**.

Please note, the size of the HDMI lead is important. NOT ALL HDMI leads will fit. Refer below for images of the leads required and their dimensions.

**1**

Install the SPMK20 bracket to the wall using included fixings.

**2**

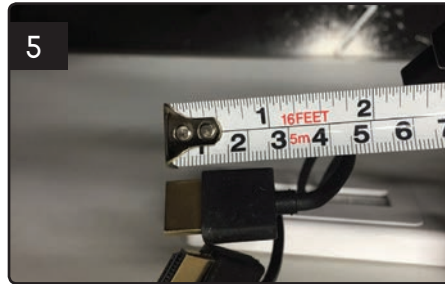

Run cables. In this example, cables are run through a wall plate.

**3**

Connect HDMI cables to correct inputs/outputs on the Sound Bar.

**4**

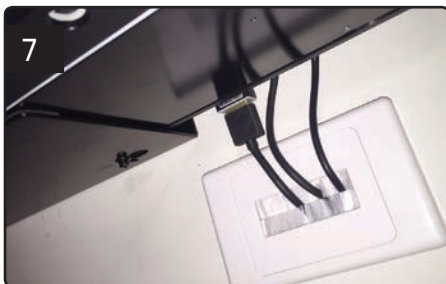

Use flexible, thin HDMI cables and/or 90-degree adaptors.

**5**

Depth of HDMI plug should not exceed 25 mm (refer picture).

**6**

Place the Sound Bar on the SPMK20 bracket and fasten it.

**7**

Cable shown from underneath SPMK20 bracket.

**8**

Back plate of bracket sits 20 mm from wall.

**9**

The Sound Bar installation is now complete.
