## Smart and sophisticated in any decor, this bedside companion plays your favourite music.

The TSX-130 is a compact, convenient and attractive way to add musical enjoyment to your bedroom. Versatile enough to play a wide variety of music sources, it's sure to keep you entertained. Set it to wake you to your favourite music in the morning, then use it as a handy place to deposit things you need, like eyeglasses or keys. And with its real wood top panel, it will add an attractive touch to any interior.

### iPod Dock on Top Panel

Dock your iPod into the top of the unit and listen to your music through the high quality speakers. You can operate the iPod from the remote unit, and the iPod is charged when in use/standby.

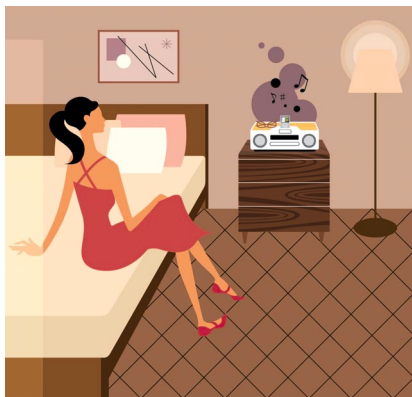

### USB Port on Top Panel

If you have a USB portable player or a USB device with songs stored on it, you can connect it to the USB port on the top panel. The TSX-130 will play both MP3 and WMA tracks.

### CD Player

You can listen to regular CDs and also recordable CDs with MP3 or WMA tracks.

### FM/DAB Radio

You can enjoy DAB (digital audio broadcasts) as well as FM radio. convenient Auto Preset function automatically presets 30 FM and 30 DAB stations.

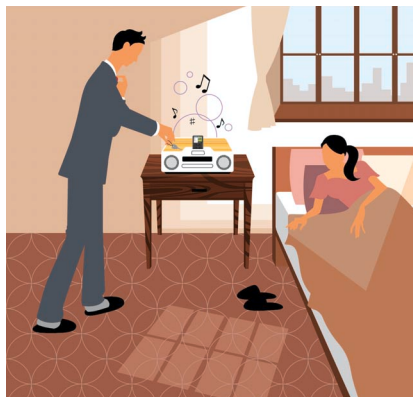

### Good Sound Quality with Strong Bass

The 15W x 2 amplifier is powerful enough to produce strong sound energy from the independent left and right 8cm speakers. The design includes two bass reflex ports on the back that enhance bass sound dispersion.

### Convenient Flat Top

With its flat, real wood top, the TSX-130 doesn't just take up space. It's convenient

Convenient real wood top panel

for setting your eyeglasses on when you go to bed, or your mobile phone, so you can pick it up together with your iPod when you go out. You'll always know where they are – right on your indispensable music system!

### Clock with Dual Alarm Function

The front panel clock has a dual alarm with wake up, sleep and snooze functions. You can set the alarm for music (even a specific song) or a beep sound. There is also a new alarm mode that provides a gentle, stress-free wakeup with music that fades in and then a beep to ensure that you're awake.
